Directions:

For each group, have 2 computers next to each other. One computer should be on **Put Your Stamp on China** and the other will be used to type information onto your template. Each member of your group should have a role. The Research Director should assign roles to each group member for this part of the quest to ensure that all components are completed correctly.

Type the information for each topic that you research. Use your mouse to place the cursor correctly on each line and begin typing. As you type you will automatically create enough space for your answer. Good Luck and remember that when doing research we take information we have found and *put it into our own words to explain it to others*. Be careful not to just copy what you see.

#1
1. Research Topic:
2. Cite Web site: (You can copy & paste from the site.)
3. Information you discovered:
4. Picture you want to remember: (You can cut and paste from the site.)
5. Why does your team feel this is an exceptional representation of Chinese culture that will take the form of your original artwork?

#2
1. Research Topic:
2. Cite Web site: (You can copy & paste from the site.)
3. Information you discovered:
4. Picture you want to remember: (You can cut and paste from the site.)
5. Why does your team feel this is an exceptional representation of Chinese culture that will take the form of your original artwork?
