

Prologue

the moon had stoped revolving
& the world hwas ended.
I am not sad because
I know that the world
& the people even if they
won't look like we did
will start over again. they
will inhabit the earth. I
will hide underground &
hope I will not die. Then
ask them how I could
save the earths moon.
& ask them if they
will help me keep it
going. I hope they will
not refuse. or attack me.

they may not be docile.
but I'm going to keep going.
thus my journey begins

Chapter One

my mother walks in with the peanut butter & jelly. I had requested earlier. I was holding the new gizmo I had been working on. I had been building things my whole life or as long as I could remember. My Mother would always ask "what are you working on now" I would answer & show her and she would always be amazed. She would say something like "wow very advanced." & that is now the kitchen

became a disaster area that
the police wouldn't cross

She's a one of kind Girl

One day she hopes to be someone that everybody know her name —. She's a one of kind girl —. She's a one of kind girl. She hopes that the hole world will know her —. All the time, all day and every weeks —. She hopes to be known forever and beyond —.

She's a one of kind girl. She hopes to be — someone to — be — loved —.

She's a one of kind girl. Sometimes she feels invisible when her friends don't talk to her — or they are mad at her —. She's a one of kind girl —. She's a one of kind girl —.

She's a one of kind girl. She's a one of kind girl —. She's a one of kind girl —. That girl — is me — me.

She's a one of kind girl. She always thinks and dreams big. She sees stuff that is going to happen — when she is dreaming and sleeping. — she's a one of kind girl —.

That girl will always be me — to the end —.

She's a one of kind girl —.

She's a one of kind girl —.

She doesn't care what any — one says about her. She loves her life and that is all she cares about don't even try to worry about

anything else to say. She's a one of kind girl. That girl is me — forever. peace out —.
