JOT CHART

Action by a character, Outcome from an event, Author's set up of the selection	Evaluation:	Judgment:
Action by a character: What did this character do? West Toby (Pg 168)	I like that you put page #'s down!! Toby went outside to Egypt each night the Egyptians wrote an orical and wrote the answer on the opposite side of the piece of paper. Pg 168	I think it was a good idea and a bad idea. Good because it brought up the other Egyptians spirits and imaginations and bad because he should seek like the
Outcome from an event: What happened during this event, how did it turn out? The group sets up an orical (Pg 142-173)	The Egyptians decided to set up an orical and wrote questions for the orical to answer and the orical answered these questions Pg 142-173	I think that the orical was a creative idea but after it started writing those things I would of stop doing it I like the at night.

How the Author chose to write this section of the novel: What style did she use?

wrote the book in third person

Your own choice of example (choose another event or action from the three above):

April needs to go out and get her math journal she left in Egypt pg 184

The author wrote the book so the narrator isn't in the story

April takes Marshall out and April gets caught pg 184

I think that it was a bad idea for April and Marshall to sneak out

I think that the author should have wrote the story in a characters point of view. I think the story for

Good judgement

need to say that will be good

the character that is now the mos

should have been in Melonie point of view because Melonie seems to be the character that is now the mos

I don't think
April should
☹️ wear those
fake eyelashes

I don't think
she should
☹️ wear the
because
☹️ their too
big and
black.

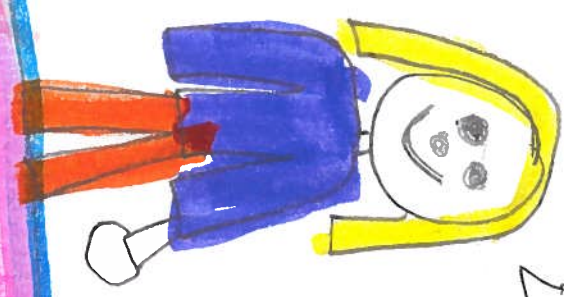

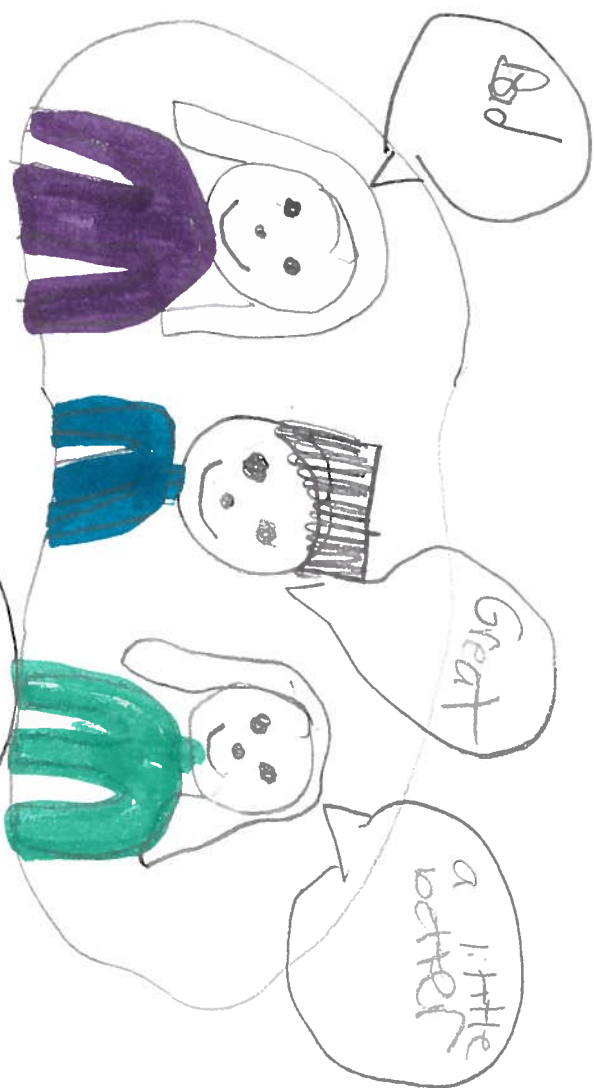

Also
I don't
really
think
she looks
good in
them. I

think the
same thing
☹️ melina said
that April
shouldn't
☹️ wear them
to school. She
might get made
fun of. That's
just my evaluation

Toby makes evaluations about
the Egypt Game. He thinks that
the Egypt Game is interesting.

Kylie #10

They are judging her on her singing. And how she did if she did Okay or not. q/l/o Great illustration and example!!

10/10 Copy 2 #1

Judging April in this picture I would say
she's a brat, and a snob because of her hair and
fake eyelashes. I would also say she thinks she
better than everybody else because of
her hair, and fake eyelashes.

I like the part of the book when Toby and Ken scare the girls and Marshall because
 I think it is funny how Toby and Ken scared the girls. I think it was mean
 for them to scare the girls but also funny. I also think that
 it was kind of a weird how they came up in a box to watch the girls. ^{10/10} Great
 This is my opinion of the book.
