

## Do You Like Animals?

My animals name is Sibeleana. My animal looks different than others . Also my animal has a tail like a sqarel and gils cover my animals body. My animal has legs like a rabbit.

My animal moves like a rabbit. Its body looks like a fish . It has a mouth like a bird. It's head is like a panda bear.

The problom my animal has to solve is she is in a contest and it has to jump the highest to save the baby rabbit.
